

SMART

EMERGENCY LIGHT MODEL EL-3W

SMART LED EMERGENCY LIGHT MODEL-EL-3W operates efficiently and save power but also reduces maintenance and service costs as a result of their long life. Conventional emergency light require frequent lamp replacement and routinely need service during critical work periods. EMERGENCY LED LIGHTS will help save costs and increase efficiency by ensuring that work will never be stopped due to missing, broken, or burned out bulbs with battery backup.

Specifications:-

- Input: Voltage: 230VAC
- Frequency: 50Hz
- Power factor : > than 0.8
- Efficiencies: >90%
- Battery Rechargeable :- Li-ion 2000mAh 10.8V
- Lamp:-Led 3w
- Led count:-3
- Protection degree:-IP-65
- Ambient temperature:- 0deg c-60 deg c
- Body:-White ABS type
